

Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

September 27th.

Vice-President BRIDGES in the Chair.

Twelve members present.

On report of the respective Committees, the following papers were ordered to be published :

Description of New Genera and Species of North American MYRIAPODA.

BY DR. H. C. WOOD, JR.

Family *POLYZONIDÆ*.

Genus *OCTOGLENA*,* Wood.

Oculi octo, in seriebus duobus simplicibus dispositi.

The eyes in this genus are very prominent, and are arranged in two straight rows, which are so placed, one on each side, near the base of the antennæ as to be convergent inferiorly.

O. BIVIRGATA.

O. brunneus, utrinque virga fusca ornatus; segmentis fere 45.

The head of this species is very small, and is pilose. The antennæ are rather

* γλῆνη oculus.
